

You've struggled with 4

square boxes
for years —
you know

how small, cramped and
time consuming they are.

Unlike the standard 4
square box; The 5 Square
Box provides the space
and cable management
you have always wanted
and needed.

The Revolutionary 5 Square[®] Telecommunications BOX!

*Making Communications & Fire Protection
More Reliable and Cost Effective!*

RANDL
INDUSTRIES, INC.
WWW.RANDL-INC.COM

When high speed cables such as Cat-5E, Cat-6, Augmented Cat-6 and optical fiber cables are installed, great care must be taken to insure proper cable management and performance.

Old technology 4 square boxes have been the only available products until now. These outdated boxes have proven to be seriously undersized for today's and tomorrow's technologies.

Today's data and video technologies and cables require strict adherence to cable manufacturers minimum bend radius specifications. The 5 Square Telecommunications Box is the only box that can facilitate these requirements and help future-proof your cabling system.

Tomorrow's technology can be installed today. Are you ready?

The 5 Square's Unique Design:

- The only telecommunications outlet box with an integral cable management system
- Save labor, increase profits
- Facilitates minimum bend radius requirements
- Supports categories 5e, 6, Augmented 6, 7, Augmented 7 and optical fiber cables
- Assures a proper cable environment
- Supports PoE Plus
- Helps assure that evolving industry standards can be met as future cabling products are introduced

Installation and troubleshooting is a breeze with the additional room provided by the 5 Square Box.

**With the 5 Square
system, your next
telecommunications
installation may
be the smoothest
job ever.**
